

Aspen was recently awarded the 2006 Environmental Award

by the Los Angeles Section of the American Planning Association at its annual award ceremony. The award was presented for the

Program Environmental Impact Report (Program EIR) - Los Angeles Unified School District (LAUSD) New School Construction Program.

Our appreciation goes out to Project Manager Sandra Alarcón-Lopez, project staff, and our key subcontractors; and to Angelo Bellomo of LAUSD, and his staff, without whose guidance and close collaboration this award would not have been possible.
